### Noga Gallery

A solo exhibition showcasing novel works crafted by renowned artist Dina Shenhav is on view at Noga Gallery of Contemporary Art, Tel Aviv and will run through January 10, 2017.

Dina Shenhav has composed numerous magnum opuses and has adroitly substantiated her excellence across the wide range of mediums that she works with, be it paintings, drawings, photography, installations or video works. Being exhibited for the first time in Israel, the current exhibition embraces three of her new body of works. Best known for her gentle sculptures and large-scale installations, the strength and potential of her artworks lie in the contraposition concerning the pliability of the sponge and the compactness of the pieces she produces.
